EDUCATION

Veer Madho Singh Bhandari Uttarakhand Technical University, Dehradun
B.Tech in Computer Science and Engineering 2021 – 2025
St. Francis Sr. Sec. School, Tanakpur
Class 12 2020– 2021
Class 10 2018– 2019

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Responsive UI/UX , Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MongoDB, Mongoose
Cloud/Tools: Git, GitHub, Postman

RELEVANT EXPERIENCE

Independent Web Developer Jan 2025 – Present

- Developed and delivered web applications for individuals and small clients.
- Built full-stack applications using MERN stack with authentication and REST APIs.
- Customized UI/UX based on user requirements.
- Deployed applications using Vercel/Render and ensured responsiveness across devices.

PROJECTS

One-Cart — AI-Powered E-commerce (MERN Stack + AI) Live Link | GitHub Link

- **Architected** a full-stack e-commerce platform featuring **Role-Based Access Control (RBAC)** and secure **JWT-driven authentication** to protect user data.
- **Engineered** a dynamic product recommendation engine by integrating AI logic, enhancing user engagement and personalized browsing experiences.
- **Developed** scalable **RESTful APIs** using **Node.js** and **Express.js** to manage high-frequency operations for cart management and order processing
- **Optimized** frontend performance with **Tailwind CSS** and React state management, resulting in a 100% responsive UI across mobile and desktop devices.

ZAP-CHAT — Real-Time Chat Application (MERN Stack) Live Link | GitHub Link

- **Spearheaded** the development of a low-latency messaging system using **Web-Sockets (Socket.io)** , supporting both private and group communication channels.
- **Integrated Cloudinary/AWS S3** for secure cloud media storage and optimized server-side processing to handle concurrent data streams efficiently.
- **Implemented** secure session management via **JWT** and protected routes, ensuring end-to-end security for real-time user interactions.

Page Turner — Web Novel Platform (MERN) GitHub Link

- **Built** a comprehensive content management system allowing authors to manage complex novel hierarchies, chapters, and metadata.
- **Designed** an interactive user library featuring real-time reading progress tracking , rating systems , and community engagement through threaded comments.
- **Streamlined** content discovery by implementing advanced search algorithms, multi-category filters , and customizable reader UI modes for enhanced accessibility.

CERTIFICATIONS

- **Web Development – Codsoft (2025) |** Certificate
  Frontend and backend training including HTML, CSS, JavaScript, server-side concepts.
- **Full Stack Web Development – One Road Map (2025) |** Certificate
  Covered MERN stack, REST API design, and database management.
